

Northeast Wisconsin Chapter American Foundry Society

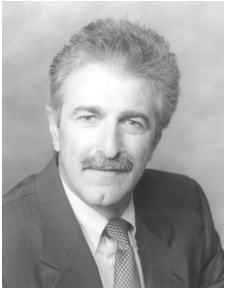

MEETING ANNOUNCEMENT

The NEW Chapter of AFS is pleased to announce our first meeting of the year on **Monday September 13, 2010**.

Gene Muratore of Rio Tinto Iron and Titanium America, and **David Borsuk** of Sadoff & Rudoy Industries LLP, will be our featured speakers for the evening.

Alloys in the Scrap Stream

Increased microalloying of steels introduces new challenges for the foundry. What are some of these alloying elements? How are they detected? How should we address alloys and micro alloys in the scrap stream? How can they impact iron quality? What are effective countermeasures? Gene and David will be with us to answer these questions and share their expertise about alloys in the scrap stream.

Gene is the Senior Foundry Metallurgist for Rio Tinto Iron and Titanium America. He has spent 20 years as an operating metallurgist for 3 different iron foundries, and is currently in his twentieth year as a technical services engineer for Rio Tinto Iron and Titanium America. He is responsible for technical service in US, Canada, Mexico, some regions of Asia. Gene is active in eight American Foundry Society committees, a member of the American Foundry Society Research Board, and a member of the American Foundry Society Chicago Chapter.

David is the Manager Industrial Marketing and Quality Control for Sadoff & Rudoy Industries LLP. He has been working for Sadoff & Rudoy Industries LLP for 40 years. David is responsible for quality, environmental, regulatory, and legislative affairs, and also has industrial and foundry sales and marketing responsibilities. Dave is Chairman of the Institute of Scrap Recycling Industries Government Relations Committee and also is the Chair for the Ferrous Specifications Committee. He is a Past President of the Wisconsin Chapter of Institute of Scrap Recycling Industries and the Vice-Chair of the Wisconsin Scrap Industry Stormwater Cooperative Compliance Program. David has been a member of the Board of Directors for the Northeastern Wisconsin Chapter of the American Foundry Society for the past 12 years. He is also the Vice Chair for the American Foundry Society 8G Charge Materials Committee.

Monday September 13, 2010
Germania Hall
320 Chute Street
Menasha, Wisconsin
